

This week Apollo class has been painting their self portraits. They have been looking in the mirror and describing their features

**Patterns**  
This week in maths we are learning how to create a pattern.

The children have been enjoying our new improved role play kitchen today

Apollo class has been so engaged exploring different movements on our new soft play. We have been sliding on our tummies, balancing and climbing.

Thank you for all the Halley community for helping us purchase this soft play.

PIC-COLLAGE

Today we have been making aliens using playdough, googly eyes, multicoloured sticks, and colourful shapes. We discussed how many eyes our aliens had and any other special features they had. Well done Apollo class.
